

MAG

design Jan Padrnos

A new re-designed litter bin series with an universal look. The litter bins are available in the version with or without a lid, on leg or plinth and in three different volume versions together with a combination for recycled waste. To all versions, an ashtray and cigarette extinguisher snuffer can be added. The front paneling can be made from wooden horizontal or vertical lamellas, sheet metal, or stretched metal sheet. The litter bin has a removable polypropylene container.

Its galvanized steel structure is treated with powder coating. The wooden panels can be made of tropical wood, spruce, oak, or wood pine ThermoWood®. At the bottom part of the leg or plinth, there are four holes for anchoring to the base.
